| DoS Office | N/A |
| Post | N/A |
| Section | N/A |
| Number of Interns | 1 |

Project Description

This project will include a combination of staff-directed and self-directed work during the internship. The intern will have regularly assigned tasks, but will also develop new ways to analyze and represent data from funded projects in Native American tribes, Native Alaskan Corporations, and Native Hawaiian organizations. Desired qualifications include the ability to analyze and present information using data analysis software such as Excel, R, Python and web visualization libraries such as D3.js or other free libraries/tools.
